2002

Leebel Services — IT Consultant

IT consulting, troubleshooting, networking, server setup & admin, web design, web app development & client relationship management.

I've built hundreds of websites as well as a CMS, CRMs, a POS System, a warehouse management system, an online banking anti-fraud system and e-commerce systems. I've also written and interfaced with many APIs.

I am 27 years old and self-taught. My hobby is my profession. I hand-code everything to ensure cleanliness. My weapon of choice is a Mac, but I also run Linux and Windows systems.

I work equally well independantly and as part of a team, especially if I'm leading it.

Basically, I'm brilliant.
